Puppy Guarantee: Your puppy is guaranteed to be sound in mind and body when they become a member of your family. You will be asked to inspect your puppy at time of pickup and will receive a signed copy of the guarantee when you take possession of your puppy. If in doubt about any issues that might arise, please call and we can work together to find a satisfactory solution for all involved with the puppy's quality of life being the primary concern at all times.

You are responsible for regular veterinary care, including the remainder of the initial series of vaccinations, rabies vaccinations and periodic worming.

- Your pup has been given his/her first shots and has been wormed regularly and the dates of these treatments have been recorded in your PET HEALTH RECORD. Take this document and your pup to the vet of your choice within 72 hours in order for the current health of the pup to be established and to receive instructions on continuing care and vaccination schedule.
- **ALL pups sold as pets are required to be spayed or neutered by 12 months of age.**
- If a health/temperament problem occurs, inform the breeder and together we can work out a solution.
- *All pups are guaranteed to be free from congenital anomalies for three full years.* If a congenital problem should occur, the pup will be replaced - no money shall be refunded. If no pup is available at the time, the buyer may select a pup of equal value from a future litter.
- This guarantee covers only replacement. All veterinarian fees or other expenses incurred will be the owners' responsibility. There will be no refunds or reimbursements of any

money for veterinarian bills or other expenses incurred by the owner.

Your Puppy Parenting Responsibilities

- **Your puppy deserves the opportunity to be the best family member he/she can be.** All puppies should be obedience trained so they can be a canine companion that can go anywhere with you and fit into your lifestyle comfortably. This should be started immediately and should continue throughout the life of your dog. He/she will be the happiest if you are pleased with their behavior. Learn to communicate what you want in a positive and loving manner and your dog will respond.
- It is your responsibility to ALWAYS provide adequate shelter, a soft bed, fresh water, high quality dog food and your love. Danes are sensitive and loving companion dogs. Your pup will achieve his/her potential under these circumstances.
- **If at any time during the dog's life you are unable to provide a proper home, for any reason, the dog is to be returned to the breeder.**
- Call the breeder with any questions you may have during the life of your dog. **We are here to provide support.**
- **We really enjoy pictures. Please keep in touch! We appreciate periodic updates on your puppy.**
- In order to adopt an AKC Dynamite Great Dane puppy, you must agree to the following provisions for the care and nurture of said puppy:
 - 1) I/we agree to feed said puppy a high quality, super premium food that is no higher 24% protein, and to follow breeder's feeding guidelines, as provided in the puppy packet, when choosing an appropriate diet for your puppy.
 - 2) I/we agree to give proper care emotionally, physically and nutritionally as well as keeping all medical up to date including vaccinations, heartworm prevention, flea control and any emergency care/treatment needed. The puppy will be seen by a veterinarian at least once a year after reaching 1 year of age. The Buyer agrees to seek medical treatment upon first detection of illness.
 - 3) I/we agree to raise and train this Great Dane to become a good canine citizen and a loved and obedient member of the household. Obedience training is recommended by the Seller.

- 4) I/we agree that said puppy will be a house dog, principally spending its time inside the home, or supervised owners' securely fenced yard with the exception of exercise or bathroom breaks. The Buyer agrees not to confine this Great Dane with a chain/cable/rope in the yard or in the home.
- 5) I/we agree to provide a safe and suitable inside area for this puppy/dog when I/we must leave it unattended. Crate training has been advised by the Seller. Baby gates work well with Great Dane puppies during training. I/we will leave our puppy/dog something to play with and/or chew on if I/we must be gone for extended periods regularly.

Your Puppy's Personal Identification and AKC Registration Information

(This portion will be completed by breeder at time of placement)

- Your puppy's dam (Mom): _____
- Your puppy's sire (Dad): _____
- Whelping date (puppy's birth date): _____
- Sex: M _____ F _____
- Age at adoption: _____
- Color and identifying marks _____

- You will receive an AKC registration form from us. After you decide on your pup's name, fill it in the box indicated. We will have filled out the rest of the form for you. Your signature(s) is required. Send the completed form, along with the appropriate fee to the AKC to register your dog and to formally establish ownership transfer.
- If it has been established that your pup will be used for breeding/show purposes, you will receive a full registration. Under no circumstances should any offspring ever be sold to pet shops, puppy brokers or any other commercial enterprise. Females should not be bred until after 18 months of age.
- All pups sold as pets are sold on a limited registration (offspring ineligible for registration) to discourage indiscriminate breeding and to safeguard the integrity of the noble Great Dane breed.
- ***I/WE UNDERSTAND AND AGREE TO MY/OUR RESPONSIBILITIES REGARDING THE CARE AND NURTURE OF MY/OUR PUPPY.***

Puppy parent's signature(s): _____

Date: _____

In order to reserve your puppy, please complete the following portion and mail the signed contract to us, at the address above, along with your \$50 reservation fee:
